PUMPING SOLUTIONS

PRODUCT

Pumps

15 pump families, 0.5 HP to 500 HP

OVERVIEW

Kedia Water House Pvt. Ltd. offers a complete range of premium pumping solutions for residential, commercial, industrial, agricultural, and municipal applications. Our pumps are designed to deliver high efficiency, reliability, and long service life while meeting diverse water handling requirements.

SPECIFICATIONS

POWER RANGE	0.5 HP to 500 HP
BOREWELL SIZES	4", 6", 8", 10" & 12"
MATERIALS	Cast Iron, SS304, SS316, Duplex SS
SECTORS	Residential · Commercial · Industrial · Agricultural · Municipal

15 PUMP FAMILIES

- Borewell Submersible Pumps**
4", 6", 8", 10" & 12" · 0.5 HP to 150 HP · extracting groundwater from deep borewells
- Centrifugal Pumps**
0.5 HP to 500 HP · End Suction, Monoblock, Horizontal Split Case, Vertical Inline, Horizontal & Vertical Multistage
- Domestic Pressure Booster Pumps**
0.5 HP to 5 HP · Single & Twin Pump Systems · constant water pressure in homes
- Commercial & Industrial Pressure Booster Systems**
3 HP to 200 HP · Duplex, Triplex & Multi-Pump · with intelligent controllers
- Sewage Pumps**
2"–16" Discharge · 0.75 HP to 250 HP · wastewater containing solids and sludge
- Slurry & Mud Pumps**
2 HP to 500 HP · abrasive liquids containing mud, sand, slurry and sludge
- Fire Fighting Pumps**
5 HP to 500 HP · End Suction, Split Case, Vertical Turbine, Jockey, Diesel & Electric
- Vertical Turbine Pumps**
10 HP to 500 HP · high-capacity pumping from deep wells and rivers
- Dewatering Pumps**
Portable, Submersible, High Head · rapid water removal from sites and flooded areas
- Chemical Process Pumps**
Cast Iron, SS304, SS316, Duplex SS · corrosion-resistant pumps for chemicals and process fluids
- Boiler Feed & High Pressure Pumps**
3 HP to 300 HP · high-pressure pumps for boiler and industrial applications
- Hot Water & HVAC Pumps**
Efficient circulation pumps for heating and cooling systems
- Swimming Pool Pumps**
Filtration pumps for clean swimming pool circulation

- **Solar Pumping Systems**

Solar-powered water pumping solutions

- **Self-Priming Pumps**

Automatically remove air from suction line

- **APPLICATIONS**

Residential Water Supply

Irrigation

Commercial Buildings

Industries

Municipal Water Projects

Hotels & Hospitals

STP

ETP

Power Plants

Mining

Construction

Water Treatment

- **KEY FEATURES**

- High efficiency, reliability, and long service life
- Meets diverse water handling requirements
