

B1

PIPES, FITTINGS & FLOW CONTROL

PRODUCT

Carbon Steel Seamless Pipes

½" to 24", SCH 10 to XXS

OVERVIEW

Carbon Steel Seamless Pipes are high-strength, joint-free pipes designed for superior pressure resistance, durability, and long service life, making them ideal for water supply, industrial plants, firefighting systems, power projects, infrastructure, and other critical engineering applications.

SPECIFICATIONS

SIZES	½" to 24" and above
WALL THICKNESS	SCH 10, 20, 40, 80, 160, XXS, and custom wall thicknesses
LENGTHS	6 m, 12 m, and random lengths
ENDS	Plain End (PE) · Beveled End (BE) · Threaded End (TE)
FINISHES	Black · Hot Finished · Cold Drawn · Protective Coated

4 FINISHES

- Black Pipes
- Hot Finished Pipes
- Cold Drawn Pipes
- Protective Coated Pipes

APPLICABLE STANDARDS

- ASTM A53
- ASTM A106 (Grades A, B & C)
- ASTM A333
- API 5L
- IS 1239 (where applicable)

APPLICATIONS

- Water Supply
- Industrial Plants
- Firefighting Systems
- Power Projects
- Infrastructure
- Critical Engineering Applications

KEY FEATURES

- High-strength, joint-free construction
- Superior pressure resistance
- Durability and long service life
