PRODUCT + SYSTEM

Solar Water Pumping & Lighting Solutions

Pumps 0.5–50 HP · Lighting 20 W–300 W

OVERVIEW

Solar Water Pumping & Lighting Solutions provide reliable, energy-efficient, and environmentally friendly systems for sustainable water supply and outdoor lighting.

SPECIFICATIONS

PUMP CAPACITIES	0.5 HP to 50 HP and above
LIGHTING RANGE	20W to 300W
GRID MODES	On-grid and off-grid applications

PUMPING & LIGHTING

Solar Submersible Pumps Solar Surface Pumps Solar Monoblock Pumps DC & AC Solar Pumps Solar Pump Controllers
Accessories Solar Street Lights LED Flood Lights Garden Lights High Mast Lighting Systems Area & Security Lights

APPLICATIONS

Municipal Water Supply Rural Drinking Water Schemes Irrigation Commercial Industrial Government Infrastructure Projects

KEY FEATURES

- Low operating costs
- Minimal maintenance
- Reliable performance
- Long service life
- Clean and sustainable energy solutions
